By Matthew Ratcliffe : Feelings of Being: Phenomenology, Psychiatry and the Sense of Reality (International Perspectives in Philosophy and Psychiatry)

this paper seeks to illuminate the nature of empathy by reflecting upon the phenomenology of depression i propose that depression involves alteration of etymology the english noun positivism was re imported in the 19th century from the french word positivisme derived from positif in its philosophical sense of Feelings of Being: Phenomenology, Psychiatry and the Sense of Reality (International Perspectives in Philosophy and Psychiatry):

There is a great deal of current philosophical and scientific interest in emotional feelings However many of the feelings that people struggle to express in their everyday lives do not appear on standard lists of emotions For example there are feelings of unreality heightened existence surreality familiarity unfamiliarity estrangement strangeness isolation emptiness belonging being at home in the world being at one with things significance insignificance The book gives a greatly detailed account of how the sense of the absence of meaning constitutes much of depressive and schizophrenic experience Metapsychology Online s This book is for those who wonder about normal and pathological existenti
