

consciousness jean nicod lectures Sweet Dreams: Philosophical Obstacles to a Science of Consciousness (Jean Nicod Lectures):

In the years since Daniel Dennett's influential *Consciousness Explained* was published in 1991, scientific research on consciousness has been a hotly contested battleground of rival theories so rambunctious, Dennett observes, that several people are writing books just about the tumult. With *Sweet Dreams*, Dennett returns to the subject for revision and renewal of his theory of consciousness, taking into account major empirical advances in the field.
