meredith chivers is a creator of bonobo pornography she is a 36 year old psychology professor at queens university in the small city of kingston sex differences in behavior and cognitive abilities behavioral sex differences

may originate in events that begin in the Studying Human Behavior: How Scientists Investigate Aggression and Sexuality:

In Studying Human Behavior Helen E Longino enters into the complexities of human behavioral research a domain still dominated by the age old debate of nature versus nurture Rather than supporting one side or another or attempting to replace that dichotomy with a different framework for understanding behavior Longino focuses on how scientists study it specifically sexual behavior and aggression and asks what can be known about human behavior A fascinating book Longino has clearly articulated the methodological plurality of research on human behavior
