The Emergence of the Physical Body in Ancient Greece:

The Symptom and the Subject takes an in depth look at how the physical body first emerged in the West as both an object of knowledge and a mysterious part of the self Beginning with Homer moving through classical era medical treatises and closing with studies of early ethical philosophy and Euripidean tragedy this book rewrites the traditional story of the rise of body soul dualism in ancient Greece Brooke Holmes demonstrates that as the body s ocirc Brooke Holmes volume is a wonderful read that would be enjoyed not only by scholars but also by people interested in the history of ideas in the Greek world I also think that such a work must be a source for any future analysis of the concepts of person so
