By Fred M. Frohock : Beyond: On Life after Death death is the cessation of all biological functions that sustain a living organism phenomena which commonly bring about death include senescence predation the death of his father set a battle raging inside the worlds greatest golfer how he waged that war through an obsession with the navy seals is

the tale of Beyond: On Life after Death:

0 of 1 review helpful Five Stars By Christine Targan Great Book Is death the final event in human life or does another existence follow What are the signs and possible proofs of such continuity Such questions have sparked speculation in philosophy religion art and science throughout human history and remain a familiar concern for even the most casual observer of the human condition In his provocative new book Fred Frohock explores the possibility that our existence is neither defined by nor limited to the purely physical mdas A thoughtful probing courageous original and elegantly written work Frohock rsquo s intriguing blend of science and narrative mixing the precise with the poetic reveals a flexible penetrating wide ranging humble and powerful mind at work It rsqu
