4 of 4 review helpful Be Jedi in the real world By Johno This is a book that guides the reader through the essentials of applied Jedi Philosophy which is living as a Jedi in the real modern world without light sabers robes and psychic powers Skeptics may read the title and smirk This would be a mistake Firstly do not be fooled by the title or constant reference to Jedi In the context of the ldquo Jedi Circle rdquo This is the Tier Two Training Program offered by the Jedi Academy Online This is simply a collection of lectures and assignments based upon the Jedi Circle While this offers a look at Jedi philosophy it is simply a workbook for the JAO website
