2 of 2 review helpful Better than the best healing medications on the market By Dan McMullen This book has already changed my life with the removal of just three major distortions As a result I have regained my stress free life back It

is apparent to my wife my daughter and to those that I work with They've all but come right out and ask what new medicines I've been taking What's funny is that since I've gotten rid of them Today our world suffers from warped and twisted thinking That affliction is caused by hidden distortions of logic Those distortions are fixed inflexible tools of thought that cause all of our mistakes Humanetics exposes the exact nature of those distortions It shows their causes their results and their remedies It constitutes a new science of perfective thinking Introduction Clearly our world is in trouble With all our graft and corruption our selfishness About the Author During his lifetime Richard W Wetherill was often described as a person who was scores of years ahead of his time His associates and members of his research group realize that his day has finally come Increasingly it is becoming fashionable
